Language Awareness for Key Stage 3 7: Case

Activity 1:

Make a list of all the words in English with separate nominative and accusative forms. There are some pronouns without separate forms for these cases; include them in your list too.

Accusative

Activity 2:

In groups, take some time to think of any other languages that you might know. How many cases do these languages have? You can start by trying to translate some of the sentences that we've seen (e.g. with *see*, *give*, *help*). Can you find any cases that we haven't seen yet?
